PRESENTS

## Medical Device Innovation Leap of Faith or Folly

The need for innovative medical devices is rapidly expanding. Innovators are involved in designing and producing new devices to deal with various medical problems. It makes great business sense to be involved in medical devices, and like any other business, the opportunities and challenges are manifold. **Tom Burgmann** of **MedX Healthcare Corporation** will talk about his experiences in setting up medical device enterprises based-on innovative technologies. He will share some of his experiences and will provide practical tips about creating medical devices business. This event will be in the format of a presentation followed by an informal discussion. Refreshments will be served.

Location: Faculty Club, South Building, University of Toronto at Mississauga  
3359 Mississauga Road North, Mississauga, Ontario L5L 1C6

Date: Wednesday, November 15, 2006

Time: 6:30 p.m. – 7:30 p.m. – Presentation and Discussion
